

PROGRAM

17.04.

08.00 **Registration of participants**

HALL 1

Masterclass:
Concept of modern laparoscopic approach in hernia treatment

Opening lecture

09.00-09.30 How and why become an international expert of abdominal wall surgery (Giampiero Campanelli)

Session 1

Presidency:

Giampiero Campanelli, Bojan Jovanović, Aleksandar Gluhović

09.30-10.00 From Stoppa to TEP: the evolution of minimally invasive inguinal hernia surgery (Aleksandar Gluhović)

10.00-10.30 ACM and TAR in the same time: when, how, why (Giampiero Campanelli)

10.30-11.00 IPOM in ventral hernias (Srđan Mijatović)

11.00-11.30 Laparoscopic approach to anterior abdominal wall defects - history and new trends (Walter Zuliani)

11.30-12.00 Minimally invasive options in the treatment of incarcerated femoral hernia (Andrei Mihailescu)

12.00-12.30 *Coffee break*

12.30-13.00 TEP versus TAPP in laparoscopic repair of inguinal hernias (Radenko Koprivica)

13.00-13.30 eTEP Rives-Stoppa as the method of choice in the treatment of anterior abdominal wall hernia (Bojan Jovanović)

13.30-14.00 Preperitoneal robotic ventral hernia repair (Piero Brunì)

14.00-14.30 Preperitoneal approach in laparoscopic hernia repair (Marco Rovagnati)

14.30-15.30 *Lunch*

Session 2

Presidency:

Aleksandar Simić, Miloš Bjelović, Bernhard Drummer

15.30-16.00 Laparoscopic lateral diaphragmatic relaxation with SERAMESH PA DRUM - implementation and Collis plastic (Bernhard Drummer)

16.00-16.30 Modern surgery of large esophageal hiatus hernias (Aleksandar Simić)

16.30-17.00 Hill's hybrid gastropexy and fundoplication as an alternative to Collis-Nissen operation in the treatment of Giant PEH (Miloš Bjelović)

17.00-17.30 Meshes in hiatal hernia (Bernhard Drummer)

17.30-18.00 Laparoscopic antireflux procedure (Milan Veselinović)

19.00 **Opening ceremony**

20.00 **Welcome cocktail, "Tami Residence" Hotel**

HALL 2

LLL- Life Long Learning Course - Nutrition in the perioperative period

11.00-11.10 Leonardo da Vinci Life Long Learning Programme: LLL: significance and goals (Marina Panišić-Šekeljić)

11.10-11.40 Metabolic response in surgery (Marina Panišić-Šekeljić)

11.40-12.10 Prevention and treatment of surgical stress: Principles of ERAS and impact on treatment outcome (Mihailo Bezmarević)

12.10-12.40 Nutritional therapy in the perioperative period (Mihailo Bezmarević)

12.40-13.10 Establishing the work and function of the gastrointestinal tract in the perioperative period (Natalija Vuković)

13.10-14.10 Case reports: Diverticulitis and stenosis of the sigmoid colon, Perioperative treatment in resectable gastric cancer, Pancreatic head cancer: the importance of perioperative nutritional support, ERAS program in oncological surgery of colorectal cancer (Marina Panišić-Šekeljić, Natalija Vuković, Igor Kržić)

14.10-15.10 Test, test evaluation, awarding of diplomas and certificates

* The course is accredited with 6 points for participants of the LLL course and with an additional 4 points for the completed course. The maximum number of participants is 60, with priority given to earlier applications. Application to Dr. N. Vuković at massha.vukovic@gmail.com

18.04.

HALL 1

Session 1

Laparoscopy of esophagus and stomach

Presidency:

Miloš Bjelović, Dejan Veličković, Predrag Sabljak

08.40-09.00 Laparoscopic treatment of achalasia, single center 5 year experience (Svetozar Antičić)

09.00-09.20 Extent of radical gastric resection and types of reconstruction in laparoscopic management of gastric cancer (Miloš Bjelović)

09.20-09.40 Challenges in creating an esophagogastric anastomosis after MIE (Dejan Veličković)

09.40-10.00 Laparoscopic approach in locally advanced gastric cancer: is it always the best choice? (Umberto Bracale)

10.00-10.20 Laparoscopic and thoracoscopic approach in the treatment of large epiphrenic diverticulum (Dragan Gunjić)

10.20-10.40 Minimally invasive gastric cancer surgery (Keramatollah Ebrahimi)

10.40-11.00 Laparoscopic surgery for achalasia (Nebojša Ignjatović)

11.00-11.20 *Coffee break*

Session 2

Bariatric surgery

Presidency:

Ognjan Skrobić, Dragan Gunjić, Bojan Jovanović

11.20-11.40 Gastric sleeve resection - the first step in bariatric surgery (Bojan Jovanović)

11.40-12.00 Gastric bypass with single anastomosis (OAGB - our experience) (Zoran Ražnatović)

12.00-12.20 Complications of Roux-en-Y gastric bypass in bariatric surgery (Đorđe Bajec)

12.20-12.40 SADI-S: procedural principles and our experiences (Ognjan Skrobić)

12.40-13.00 Robotic bariatric surgery (Miljana Vladimirov)

13.00-13.20 Complications in bariatric surgery (Pavle Gregorić)

13.20-14.00 *Lunch*

Session 3

Urgent laparoscopic surgery

Presidency:

Srđan Mijatović, Predrag Andrejević, Pavle Gregorić

14.00-14.20 The role of laparoscopy in urgent surgery - current state of evidence (Andrei Mihailescu)

14.20-14.40 Urgent colorectal surgery (Predrag Andrejević)

14.40-15.00 Laparoscopic treatment of perforating appendix (Srđan Mijatović)

15.00-15.20 Complications of appendectomy (Dušan Micić)

15.20-15.40 Laparoscopic approach in the treatment of acute inflammation of the gallbladder (Vanja Pečić)

15.40-16.00 Importance of laparoscopy in urgent colorectal surgery (Zlatko Perišić)

16.00-16.20 Laparoscopic appendectomy in patients with perforating appendicitis: a seven-year experience (Predrag Ivanović)

20.00 **Gala dinner, Restaurant "Perla"** (6000,00 RSD / 55 EUR, not included in package price)

HALL 2

Session 1

Laparoscopic hepatobiliary surgery

Presidency:

Daniel Galun, Aleksandar Karamarković, Vladimir Đukić

09.00-09.20 Laparoscopic sparing liver resection (Daniel Galun)

09.20-09.40 Laparoscopic liver surgery (Arpad Ivanecz)

09.40-10.00 Leanne's capsula concept in anatomical open and laparoscopic surgery (Aleksandar Karamarković)

10.00-10.20 Modalities of laparoscopic pancreatic surgery (Dragan Radovanović)

10.20-10.40 The role of VARD in acute pancreatitis (Blaž Trotošek)

10.40-11.00 Miniinvasive laparoscopic surgery of the pancreas - tips and tricks (Nikolay Belev)

11.00-11.20 *Coffee break*

Presidency:

Slavko Matić, Arpad Ivanecz, Dragan Radovanović

11.20-11.40 Robotic surgery of pancreatic cancer (Miha Petrić)

11.40-12.00 Laparoscopic distal pancreatectomy with preservation of the spleen (Aleksandar Gluhović)

12.00-12.20 Laparoscopic Wipl operation (Miljan Milanović)

12.20-12.40 The value of the right lateral position in laparoscopic surgery (Dragan Radovanović)

12.40-13.00 Safe minimally invasive liver resections for gallbladder cancer (Mihajlo Đokić)

13.00-13.20 Pancreatic injuries in laparoscopic surgery (Vladimir Đukić)

13.20-14.00 *Lunch*

Presidency:

Blaž Trotošek, Nikolay Belev, Zoran Ražnatović

14.00-14.20 Intraoperative assessment of biliary anatomy in prevention bile duct injury (Slavko Matić)

14.20-14.40 Complications of laparoscopic liver and biliary tract surgery (Miroslav Stojanović)

14.40-15.00 Laparoscopic distal pancreatectomy: indications, techniques and problem (Mihajlo Bezmarević)

15.00-15.20 Optimal time for cholecystectomy after biliary pancreatitis (Zoran Ražnatović)

15.20-15.40 Cholelithiasis: a minimally invasive approach (Nebojša Stojaković)

15.40-16.00 Rendezvous procedure, ERCP and cholecystectomy in choledocholithiasis (Nenad Davidović)

16.00-16.20 Minimally invasive surgery of echinococcal liver cyst: principles of operative technique, prediction of biliary fistula and disease recurrence (Boris Tadić)

16.20-16.40 Laparoscopic surgery of the spleen (Saša Dragović)

19.04.

HALL 1

Session 1

Laparoscopic colorectal surgery

Presidency:

Miljan Čeranić, Tan Arulampalan, Igor Kržić

10.00-10.20 Marginal gains in surgical performance - from competence to mastery (Tan Arulampalan)

10.20-10.40 Mythology, methodology and reality in CME (Danilo Mišković)

10.40-11.00 Carcinoma of the right colon - CME or conventional surgery (Igor Kržić)

11.00-11.20 Mobilization of the splenic flexure (Bojan Krebs)

11.20-11.40 Laparoscopic left colectomy with IMA preservation in diverticular disease: results of a multicenter study (Umberto Bracale)

11.40-12.00 Right hemicolectomy: intracorporeal vs. extracorporeal ileo-colic anastomosis (Nebojša Stojaković)

12.00-12.20 *Coffee break*

Presidency:

Goran Stanojević, Nebojša Stojaković, Umberto Bracale

12.20-12.40 Preoperative colonoscopic marking (tattooing) in laparoscopic colorectal surgery (Goran Stanojević)

12.40-13.00 Application of indocyanine green (ICG) in laparoscopic colorectal surgery (Predrag Andrejević)

13.00-13.20 Complications in laparoscopic colorectal surgery - results of the LAPSERB program (Miljan Čeranić)

13.20-13.40 Robotic colorectal resections at UMC Ljubljana- steady road from competency to proficiency (Jan Grosek)

13.40-14.00 T3 rectal tumor - laparoscopy? Challenges and possible complications (Boško Milev)

14.00-15.00 *Lunch*

Presidency:

Danilo Mišković, Bojan Krebs, Predrag Andrejević

15.00-15.20 The best use of video for laparoscopic training (Tan Arulampalan)

15.20-15.40 Transanal minimally invasive surgery (TAMIS) in the treatment of pathological lesions of the rectum (Dejan Stevanović)

15.40-16.00 Scope and techniques of laparoscopic lymphonidectomy (Srđan Nikolić)

16.00-16.20 To whom, when and why to create a protective stoma in patients after laparoscopic resection of rectal cancer (Nenad Lalović)

16.20-16.40 Operative treatment of hemorrhoids with laser - LHP (Igor Pipovski)

17.00 **Distribution of certificates and closing of the congress**

General sponsor

Medical
