

CENTAR ZA
MINIMALNO INVAZIVNU HIRURGIJU
UKC NIŠ

3rd INTERNATIONAL SYMPOSIUM OF MINIMALLY INVASIVE SURGERY

NAISSA

organized jointly by the Center for Minimally Invasive Surgery, UHC Niš
and the Association of Endoscopic Surgeons of Serbia

Wednesday, April 22nd

Hall 1

11.00-17.30	LAPAROSCOPIC SURGERY TODAY	16.00-16.15	Laparoscopy in GH Leskovac Predrag Lukić (Serbia)
11.00-11.15	Laparoscopy in GH Čačak Dejan Dabić (Serbia)	16.15-16.30	Laparoscopy in UCC Kragujevac Ivan Radosavljević (Serbia)
11.15-11.30	Laparoscopy in CHC Zvezdara Zlatko Bokun (Serbia)	16.30-16.45	Laparoscopy in GH Sombor Siniša Zarić (Serbia)
11.30-11.45	Laparoscopy in CHC Zemun Dejan Stevanović (Serbia)	16.45-17.00	Laparoscopy in GH Pirot Žarko Todorović (Serbia)
11.45-12.00	Laparoscopy in GH Kraljevo Ivica Zarev (Serbia)	17.00-17.15	Laparoscopy in UCC Foča Nenad Lalović (Bosnia and Hercegovina)
12.00-12.15	Laparoscopy in GH Zaječar Tatjana Milačević (Serbia)	17.15-17.30	Laparoscopy in UCC Banjaluka Zoran Aleksić (Bosnia and Hercegovina)
12.15-12.30	Laparoscopy in CHC "Dragiša Mišović" Predrag Savić (Serbia)	17.30-18.00	ROUND TABLE - PANEL DISCUSSION: LAPAROSCOPIC SURGERY YESTERDAY, TODAY, TOMORROW - A STEP TOWARDS ROBOTICS? Aleksandar Simić, Bojan Jovanović, Miljan Čeranić, Daniel Galun, Ognjan Skrobić, Zoran Radovanović, Aleksandar Gluhović
12.30-12.45	Laparoscopy in GH Valjevo Saša Žunić (Serbia)		
12.45-13.00	Laparoscopy in CHC Bežanijska Kosa Borislav Tošković (Serbia)		
13.00-13.15	Laparoscopy in VMA Boško Milev (Serbia)	19.00-19.15	OPENING LECTURE: Precision Surgery: Robotic, Augmented Reality, and 3D-Printed Approaches to Complex Giant Hiatal Hernia With Mesenteroaxial Volvulus Luigi Marano (Poland)
13.15-13.30	Laparoscopy in GH Senta Lehel Burany (Serbia)	19.15-19.30	OPENING LECTURE: Surgical ego, the good, the bad and the ugly Abe Fingerhut (USA)
13.30-13.45	Laparoscopy in GH Kruševac Rade Zdravković (Serbia)		
13.45-14.00	Laparoscopy in UCC Serbia Boris Tadić (Serbia)		
14.00-14.15	Laparoscopy in UCC Niš Vanja Pecić (Serbia)	19.30-20.00	OPENING CEREMONY WELCOME RECEPTION
14.15-14.30	Laparoscopy in IO Sremska Kamenica Aleksandar Đermanović (Serbia)	20.00	
14.30-14.45	Laparoscopy in GH Zrenjanin Aleksandar Ognjenović (Serbia)		
14.45-16.00	LUNCH TIME		

Hall 2

11.00-14.50	FREE PAPERS Chairmans: Srđan Mijatović (Serbia), Predrag Andrejević (Malta)	13.10-13.20	Contraversis in Ventral/Incisial Hernia Repair - Laparoscopic vs. Open Approach Marinko Žuvela (Serbia)
11.00-11.10	The Role of Magnets in Creating Anastomosis in Abdominal Surgery Zorana Mladenović (Serbia)	13.20-13.30	Role of Laparoscopy in Emergency Inguinal Hernias Selim Birol (Malta)
11.10-11.20	Laparoscopic Closure of Terminal Sigmoidostomy After Open Hartmann Surgery Tamaš Fajka (Serbia)	13.30-13.40	Laparoscopic Apendectomy - Our Experience Ivan Kostić (Serbia)
11.20-11.30	Most Common Types of Anastomosis in Minimal Invasive Esophagectomy for Esophageal Carcinoma Slobodan Rašić (Serbia)	13.40-13.50	Contraversis in Inguinal/Incisial Hernia Repair - Laparoscopic vs. Open Approach Dejan Dabić (Serbia)
11.30-11.40	Portomesenteric Venous Thrombus, a Rare, Life Threating Complication of Metabolic Surgery. Should We be More Prepared? A Literature Review. Kim A. Bailey (Malta)	13.50-14.00	Contemporary Management of Acute Cholecystitis Marija Dinić (Serbia)
11.40-11.50	TAMIS - Our Experience Milan Tadić (Serbia)	14.00-14.10	Integrating Frailty Assesment into Emergency Surgical Care: A Meta-Analysis on Postoperative Outcomes in Older Adults Svetlana Doris Brincat (Malta)
11.50-12.00	Implementation of Minimal Invasive Surgery in Treatment of Acute Appendicitis - Our Experience Lazar Vuksanović (Serbia)	14.10-14.20	Gastric outlet obstruction due to severe food passage with detected carcinoma of the peritoneum and omentum - case report Katarina Katić Stameniće (Serbia)
12.00-12.10	ERCP as Therapy of Choice in Patients With Mirizzi Syndrome Stefan Elek (Serbia)	14.20-14.30	The Impact of Staging Laparoscopy on Patient Selection for Cytoreductive Surgery and HIPEC In Peritoneal Surface Malignancies Nebojša Mitrović (Serbia)
12.10-12.20	When Medical Misdiagnosis Leads to Surgical Success Serkan Ilgun (Turkey)	14.30-14.40	ERAS Protocol in Colorectal Surgery Dejan Petrović (Serbia)
12.20-12.30	eTEP in Hernia Surgery - Our Experience Marko Ranković (Serbia)	14.40-14.50	East-west Study: Impact of Pre- and Intra- operative Factors and Post- operative Care on Anastomotic Leak Outcomes Kim A. Bailey (Malta)
12.30-12.40	Complication of Laparoscopic Cholecystectomy Marija Bekić (Serbia)	14.50-15.00	Laparoscopic colorectal cancer surgery in patients ≥75 Years - A single-center experience Dimitrije Todorović (Serbia)
12.40-12.50	Laparoscopic Gastric Surgery - Our Experience Momir Nikolić (Serbia)	15.00-15.10	A clinical outcome and cost analysis of laparoscopic versus open apendectomy Božidar Zlatković (Serbia)
12.50-13.00	From Incision to Innovation: Comparative Outcomes of NOSE and Transabdominal Extraction in Laparoscopic Colorectal Resection Svetlana Doris Brincat (Malta)	15.10-16.00	LUNCH TIME
13.00-13.10	Rectal adenocarcinoma in a patient with ulcerative colitis and simultaneous abdominal aortic aneurysm - case report Lazar Rosić (Serbia)		

Hall 1

08.00-09.15	UPPER GI TODAY Chairmans: Adel Abou Mrad (France), Predrag Sabljak (Serbia)	11.15-11.30	Management of gastric leaks after sleeve gastrectomy Panagiotis Lainas (Greece)
08.00-08.15	Laparoscopic Treatment of Oesophageal Diverticulum Nebojša Ignjatović (Serbia)	11.30-11.45	Robotic Conversion of OAGB to RYGB for Anastomotic Ulcer Miljana Vladimirov (Germany)
08.15-08.30	(Para)Esophageal Pseudotumor Fibroinflammatory Proliferation: From Mimicry to Esophagectomy Dragan Gunjić (Serbia)	11.45-12.00	COFFEE BREAK
08.30-08.45	Minimal Invasive Treatment of Oesophageal Achalasia: From Physiopatology to New Technologies Luigi Marano (Poland)	12.00-13.30	BARIATRIC SURGERY TODAY (1) Chairmans: Miljana Vladimirov (Germany), Christoph Bichler (Austria)
08.45-09.00	Is Organ Sparing Gastric Resection Justified for Proximal Located Cancer – Oncological and Functional Considerations Yogesh Vashist (Germany)	12.00-12.15	New technologies for safer anastomosis Natan Zundel (USA)
09.00-09.15	Robotic Hand-sewn Oesophageal Anastomosis Andrea Pietrabissa (Italy)	12.15-12.30	The role of obesity management medications in the context of bariatric surgery Gerhard Prager (Austria)
09.15-10.30	WHEN EFS MEETS UEHS Chairmans: Aleksandar Simić (Serbia), Davide Bona (Italy)	12.30-12.45	Management of gastro gastric fistula post bariatric surgery Alejandro Gandaz (USA)
09.15-09.30	Surgical Innovations in GERD Luigi Bonavina (Italy)	12.45-13.00	Robotic revisional bariatric surgery: where is the advantage Rodolfo Oviedo (USA)
09.30-09.45	The World of Antireflux Procedures: From Lortat-Jacob to TIF Aleksandar Simić (Serbia)	13.00-13.15	Robotic Toupet for GERD after Roux en Y gastric by-pass Adel Abou Mrad (France)
09.45-10.00	Pathoanatomy of hiatus hernia and implications for the robotic surgeon: How and why I like this Christian Gutchow (Switzerland)	13.15-13.30	How to prevent gastric sleeve complications Pavle Gregorić (Serbia)
10.00-10.15	Current Status of Minimally Invasive Management for Esophageal Diverticula Alberto Aiolfi (Italy)	13.30-14.30	LUNCH TIME
10.15-10.30	Achalasia in Clinical Practice - EFS Survey Ognjan Skrobić (Serbia)	14.30-16.15	BARIATRIC SURGERY TODAY (2) Chairmans: Ognjan Skrobić (Serbia), Luigi Marano (Poland)
10.30-11.45	YOUNG IFSO Chairmans: Natan Zundel (USA), Gerhard Prager (Austria)	14.30-14.45	OAGB - technical aspects and metabolics results Dejan Veličković (Serbia)
10.30-10.45	Genetic and phenotype assesment in Obesity Disease Elena Ruiz Ucar (Spain)	14.45-15.00	Innovations in endobariatric treatments, primary applications and redo Andrea Formiga (Italy)
10.45-11.00	Simulation and training in bariatric surgery Mario Rui Goncalves (Portugal)	15.00-15.15	Bariatric project - North Macedonia Ognen Kostovski (North Macedonia)
11.00-11.15	Biliary reflux and hiatal hernia after One Anastomosis Gastric Bypass (OAGB) Moritz Felsenreich (Austria)	15.15-15.30	Laparoscopic and robot assisted SADI-S Christoph Bichler (Austria)
		15.30-15.45	Magnetic Surgery: Innovation Hype or the Next Surgical Standard? Maja Odović (Spain)
		15.45-16.00	Internal herniation with bowel obstruction after gastric bypass Zoran Ražnatović (Norway)
		16.00-16.15	From beginner to over 100 bariatric surgeries Miljan Zindović (Montenegro)

Hall 2

09.00-10.20	EXPANDING HORIZONS IN UPPER AND LOWER GI ENDOSCOPY Chairmans: Ivan Jovanović (Serbia), Damir Muhović (Montenegro), Biljana Radovanović Dinić (Serbia)	13.00-13.15	Laparoscopy in Acute Conditions of the Colon Zlatko Perišić (Serbia)
09.00-09.20	Endoscopic Management of Advanced Precancerous Upper GI Lesions Takehide Fukuchi (Japan)	13.15-13.30	Laparoscopy of Incarcerated Hernia Aleksandar Resanović (Serbia)
09.20-09.40	Current Strategies for Endoscopic Therapy of Lower GI Precancerous Lesions Giovanni Luigi Papparella (Italy)	13.30-14.30	LUNCH TIME
09.40-10.00	Interventional Endoscopy in IBD and Corrective Endoscopic Techniques Nikola Panić (Serbia)	14.30-15.45	LAPAROSCOPY IN PEDIATRIC SURGERY (1) Chairmans: Zafer Dokumcu (Turkey), Aleksandar Sretenović (Serbia)
10.00-10.20	Bariatric Endoscopy: Tailored Solutions for Selected Obese Patients Milutin Bulajić (Italy)	14.30-14.45	Update on Management of Esophageal Atresia and Its Complications Zafer Dokumcu (Turkey)
10.20-10.35	COFFEE BREAK	14.45-15.00	MIS for Esophageal Replacement Zafer Dokumcu (Turkey)
10.35-12.00	ADVANCES IN PANCREATOBILIARY INTERVENTIONAL ENDOSCOPY Chairmans: Ivan Jovanović (Serbia), Nikola Panić (Serbia), Gjorgji Deriban (North Macedonia),	15.00-15.15	Advancements and Current trends in the minimally invasive treatment of pediatric GERD Aleksandar Sretenović (Serbia)
10.35-10.55	Indeterminate Biliary Structures: Evolving Standards in Endoscopic Diagnosis and Therapy Vladimir Milivojević (Serbia)	15.15-15.30	Pediatric Bariatric Surgery Radoica Jokić (Serbia)
10.55-11.15	Managing Complications of Acute Pancreatitis: Is Endoscopy Taking the Lead? Stanko Petrović (Serbia)	15.30-15.45	Uniportal VATS in Pediatrics: Where Are We Now? Ivan Dizdarević (Serbia)
11.15-11.35	EUS in PDAC Management: A Central Role Emerging? Emilija Nikolovska (North Macedonia)	15.45-17.00	LAPAROSCOPY IN PEDIATRIC SURGERY (2) Chairmans: Radoica Jokić (Serbia), Predrag Ilić (Serbia)
11.35-11.55	Endoscopic Biliary Drainage in Oncology: State-of-the-Art Concepts Peško Karagyozev (Bulgaria)	15.45-16.00	Diagnostic and Treatment Dilemma In a Case of Wandering Spleen Radoica Jokić (Serbia)
11.55-12.00	CLOSING REMARKS	16.00-16.15	Endoscopic Stone Disintegration in Children: Expanding the Role of Minimally Invasive Surgery Predrag Ilić (Serbia)
12.15-13.30	LAPAROSCOPIC URGENT SURGERY Chairmans: Pavle Gregorić (Serbia), Kristina Doklešić Vasiljev (Serbia)	16.15-16.30	Clips, Loops, or Staplers? Choosing the Optimal Technique for Appendiceal Stump Closure in Laparoscopy Tanja Mijović (Serbia)
12.15-12.30	Minimally Invasive Surgery in Emergency Situations – Advantages and Limitations Kristina Doklešić Vasiljev (Serbia)	16.30-16.45	Laparoscopic pyeloplasty in children: initial single-center experience Marko Marjanović (Serbia)
12.30-12.45	Acute Appendicitis and Acute Cholecystitis – A Minimally Invasive Approach Dušan Micić (Serbia)	16.45-17.00	The role of laparoscopy in recurrent pediatric inguinal hernia Petar Rašić (Serbia)
12.45-13.00	Laparoscopy in Treatment of Ulcer Perforation Srđan Mijatović (Serbia)		

09.00-11.00 **HANDS-ON COURSE:**
LAPAROSCOPIC ADVANCED SUTURING

Course tutors: Aleksandar Gluhović, Milan Veselinović

Hands-On Course in Laparoscopic Suturing, designed for surgeons and surgical trainees aiming to refine their minimally invasive skills.

Course Highlights:

- Step-by-step instruction in intracorporeal and extracorporeal knot tying
- Practical exercises on advanced laparoscopic simulators
- Expert demonstrations by experienced laparoscopic surgeons
- Individualized feedback and skill assessment
- Tips and tricks for efficiency and precision in laparoscopic suturing

General surgeons, residents, and fellows interested in improving their laparoscopic technique
Certification of Attendance will be provided upon completion.
Spaces are limited to ensure optimal hands-on experience.

11.00-13.00 **HANDS-ON COURSE:**
STAPLING IN LAPAROSCOPIC SURGERY

Course tutors: Zoran Radovanović, Bojan Jovanović

Hands-On Course in Laparoscopic Stapling, designed for surgeons and surgical trainees seeking to master the principles and techniques of safe and effective stapler use in minimally invasive surgery.

Course Objectives:

- Understanding stapler types, mechanics, and cartridge selection
- Step-by-step training in laparoscopic stapling techniques
- Safe tissue handling and staple-line reinforcement methods
- Management of intraoperative complications related to stapling
- Hands-on practice using advanced laparoscopic simulators and tissue models
- Robotic stapling device

Highlights:

- Live demonstrations by expert laparoscopic surgeons
- Small-group, mentor-guided sessions for optimal learning
- Interactive discussions on evidence-based surgical strategies
- Individualized feedback and performance evaluation

Who Should Attend:

- General and gastrointestinal surgeons
- Surgical residents and fellows involved in laparoscopic procedures

Participants will receive a Certificate of Attendance upon completion.
Participation is limited to ensure intensive hands-on experience.

ESPEN – European Society for Clinical Nutrition and Metabolism

14.30-17.00 **LLL COURSE, Topic 17:**
NUTRITION IN THE PERIOPERATIVE PERIOD

Lecturers: Mihailo Bezmarević, Bojan Jovanović, Natalija Vuković, Milena Stojanović

LLL Course modules: 1) Metabolic Responses to Surgical Stress, 2) Managing Surgical Stress: Principles of Enhanced Recovery and Effect on Outcomes, 3) Making the Gut Work, 4) Nutritional Therapy in the Perioperative Period

Learning Objectives:

- To know the important stressors in surgical care;
- To understand the important mediators of the metabolic responses to surgery;
- To know the key responses of carbohydrate, protein and lipid metabolism in the surgical patient;
- To know how the metabolic responses to surgery relate to surgical complications;
- To know the mechanisms of the strategies that have been shown to reduce the metabolic responses to surgery;
- To understand the special metabolic problems posed by some co-morbidities in surgical patients.
- Understand the key concepts underpinning modern perioperative care;
- Know the principle domains within an ERAS protocol (pain, GI function and mobilisation);
- To understand the principles of prehabilitation and how it relates to ERAS;
- Be able to discuss practical aspects of patient management to manage surgical stress and attain optimal organ function and recovery in the perioperative period;
- Understand the importance of the multidisciplinary team, unit organisation, patient information, discharge criteria and audit within an ER programme;
- Gain insight into the key outcomes that are possible with an ERAS approach.
- To understand the pathophysiological changes leading to postoperative ileus (POI);
- To estimate the magnitude of the problem;
- To examine the evidence behind strategies to prevent and treat POI;
- To learn about strategies that may be helpful in the prevention and treatment of POI in the future;
- Pseudo-obstruction or delayed gastric emptying will not be discussed.
- Necessity of nutritional risk screening in surgical patients;
- Definition of “high nutritional risk”;
- Indications and concepts for perioperative nutritional therapy according to the ESPEN guidelines;
- Preoperative conditioning;
- Enteral, parenteral, and combined enteral/parenteral nutrition;
- Macro-, and micronutrients;
- Indications for immune-enhancing diets;
- Nutritional monitoring and follow-up after discharge.

After course, there will be presented two case report with interactive discussion with participants, and an Assessment test. A certificate of 4 CME credits is awarded after passing a test (24 correct out of 30 true/false questions).

Friday, April 24th

Hall 1

09.00-11.30	MINIMAL INVASIVE COLORECTAL SURGERY (1) Chairmans: Miljan Čeranić (Serbia), Tan Aranlampulan (UK)	12.00-13.30	MINIMAL INVASIVE COLORECTAL SURGERY (2) Chairmans: Zoran Radovanović (Serbia), Keneth Cambell (UK)
09.00-09.15	Structured, Simulation-Based National Training Programme in Laparoscopic Appendectomy – Preliminary Results Miljan Čeranić (Serbia)	12.00-12.15	Failed coloanal anastomosis: decision and pathways of salvage strategies Goran Stanojević (Serbia)
09.15-09.30	Minimal Access Anterior Rectopexy – How to Do It Kenneth Campbell (UK)	12.15-12.30	Implementation of robotic colorectal surgery program at UMC Ljubljana- from competency to proficiency Jan Grosek (Slovenia)
09.30-09.45	Laparoscopic Redo in Colorectal Surgery – How Far Can We Go Valentin Calu (Romania)	12.30-12.45	Segmental laparoscopic colon resection for SFC - justified or not? Igor Krdžić (Serbia)
09.45-10.00	Anastomotic Leak – The Human, Financial, and Environmental Cost Tan Arulampalam (UK)	12.45-13.00	ICG and inovative sistems in colorectal surgery Predrag Andrejević (Malta)
10.00-10.15	Laparoscopic low anterior resection of the rectum: understanding the importance of rectal stump staple line Zoran Radovanović (Serbia)	13.00-13.15	The Lack of Standardisation in Laparoscopic Complete Mesocolic Excision for Right Colon Cancer Igor Stipančić (Croatia)
10.15-10.30	Approaches in laparoscopic colon surgery Dragan Radovanović (Serbia)	13.15-13.30	Transperitoneal vs extraperitoneal approach in laparoscopic dissection of lymph nodes Srđan Nikolić (Serbia)
10.30-10.45	Colovac device for protection of high risk colorectal anastomoses: results of SAFE-2023 study Aleksej Karachun (Russian Federation)	13.30-14.30	LUNCH
10.45-11.00	Emergency menagment of IBD. To resect or not? Delia Cortes (Spain)	14.30-16.00	MINIMAL INVASIVE COLORECTAL SURGERY (3) Chairmans: Goran Stanojević (Serbia), Svetozar Antović (North Macedonia)
11.00-11.15	Surgical management of IBD Dorin Ziyaie (UK)	14.30-14.45	Indications, Technical Tips and Outcomes of Ileal Pouch Surgery Erman Aytac (Turkey)
11.15-11.30	Robotic total mesocolic excision for splenic flexure Tumors Victor Tomulescu (Romania)	14.45-15.00	Learning curve in laparoscopic colorectal surgery after 500 cases Nebojša Stojaković (Serbia)
11.30-12.00	COFFEE BREAK	15.00-15.15	Laparoscopic VS Robotic colorectal resection. Facts based on literature and 16 year experience. Haris Konstantinidis (Greece)
		15.15-15.30	Enhanced Recovery After Surgery (ERAS) Protocols in Minimally Invasive Surgery for Colorectal Cancer Zlatan Mehmedović (Bosnia and Hercegovina)
		15.30-15.45	Laparoscopic Hartmann's reversal Milica Nestorović (Serbia)
		15.45-16.00	Laparoscopic CME: Redefining the gold standard for right hemicolectomy Milan Veselinović (Serbia)

Friday, April 24th

Hall 2

09.00-11.00 **LAPAROSCOPIC LIVER SURGERY**

Chairmans: Daniel Galun (Serbia),
Zoran Milošević (Serbia)

09.00-09.15 The mechanisms of bile duct injury during laparoscopic cholecystectomy and their prevention
Abe Fingerhut (USA)

09.15-09.30 Use of ICG in open and minimaly invasive liver surgery
Blaž Trotoševsek (Slovenia)

09.30-09.45 Selective vascular control during laparoscopic liver resections
Daniel Galun (Serbia)

09.45-10.00 Laparoscopic liver resections - how to avoid complications
Arpad Ivanetz (Slovenia)

10.00-10.15 Difficult laparoscopic liver resection
Nikolaj Belev (Bulgaria)

10.15-10.30 Single port hepatic resection - single institution experience
Mihajlo Đokić (Slovenia)

10.30-10.45 Tips for Success With the Difficult Cholecystectomy
Joshua Tierney (USA)

10.45-11.00 Synchronous resection of metastatic colorectal malignancy
Miha Petrič (Slovenia)

11.00-11.30 **COFFEE BREAK**

11.30-13.00 **LAPAROSCOPY IN PANCREATIC SURGERY**

Chairmans: Vladimir Đukić (Serbia),
Dejan Radenković (Serbia)

11.30-11.45 Laparoscopic vs open in extensive oncological surgery
Vladimir Đukić (Serbia)

11.45-12.00 Laparoscopic distal pancreatectomy
Mladen Protić (Serbia)

12.00-12.15 Open or minimal invasive pancreatic surgery
Dejan Radenković (Serbia)

12.15-12.30 The "One-step" Approach to Severe Necrotizing Pancreatitis
Joshua Tierney (USA)

12.30-12.45 Minimal invasive pancreatic surgery- where are we now
Miljan Milanović (Serbia)

12.45-13.00 Minimal invasive interventions in necrotizing pancreatitis
Mihailo Bezmarević (Serbia)

13.00-14.00 **MINIMAL INVASIVE SURGERY IN HERNIA TREATMENTS (1)**

Chairmans: Umberto Bracale (Italy),
Aleksandar Gluhović (Serbia)

13.00-13.15 Abdominal wall surgery - anatomy
Mario Rui Goncalves (Portugal)

13.15-13.30 SCOLA approach in treatment of diastasis recti, umbilical and epigastric hernia
Andrija Antić (Serbia)

13.30-13.45 Incisional hernias under local anesthesia: a possible alternative
Giovana Brancato (Italy)

13.45-14.00 Dex robotic assisted laparoscopic eTEP in treatment of ventral hernias
Aleksandar Gluhović (Serbia)

14.00-14.30 **LUNCH TIME**

14.30-16.00 **MINIMAL INVASIVE SURGERY IN HERNIA TREATMENTS (2)**

Chairmans: Umberto Bracale (Italy),
Aleksandar Gluhović (Serbia)

14.30-14.45 Chronic postoperative pain in inguinal hernia surgery
Josip Samardžić (Croatia)

14.45-15.00 Extraperitoneal Robotic Parastomal Hernia Repair - Italian experience with Pauli technique
Cesare Stabiliini (Italy)

15.00-15.15 Redo after TAPP, yes or not
Gregor Kunst (Slovenia)

15.15-15.30 Robotic preperitoneal and retromuscular repair for abdominal wall defects
Umberto Bracale (Italy)

15.30-15.45 Triple neurectomy in the treatment of chronic pain after laparoscopic hernioplasty
Radenko Koprivica (Slovenia)

15.45-16.00 Laparoscopic Hernia Day-Surgery: Challenges at the Intersection of Quality, Healthcare System, Economy and Modern Technology
Salih Avdičaušević (Germany)
