

CENTAR ZA
MINIMALNO INVAZIVNU HIRURGIJU
UKC NIŠ

3rd INTERNATIONAL SYMPOSIUM OF MINIMALLY INVASIVE SURGERY

NAISSA

organized jointly by the Center for Minimally Invasive Surgery, UHC Niš
and the Association of Endoscopic Surgeons of Serbia

Wednesday, April 22nd

Hall 1

11.00-17.15		15.00-16.00	
LAPAROSCOPIC SURGERY TODAY		LUNCH TIME	
11.00-11.15	Laparoscopy in UCC Niš Vanja Pecić (Serbia)	16.00-16.15	Laparoscopy in GH Leskovac Predrag Lukić (Serbia)
11.15-11.30	Laparoscopy in CHC Zvezdara Zlatko Bokun (Serbia)	16.15-16.30	Laparoscopy in GH Sombor Siniša Zarić (Serbia)
11.30-11.45	Laparoscopy in CHC Zemun Dejan Stevanović (Serbia)	16.30-16.45	Laparoscopy in GH Pirot Žarko Todorović (Serbia)
11.45-12.00	Laparoscopy in GH Kraljevo Ivica Zarev (Serbia)	16.45-17.00	Laparoscopy in UCC Foča Nenad Lalović (Bosnia and Hercegovina)
12.00-12.15	Laparoscopy in GH Zaječar Tatjana Milačević (Serbia)	17.00-17.15	Laparoscopy in UCC Banjaluka Zoran Aleksić (Bosnia and Hercegovina)
12.15-12.30	Laparoscopy in CHC "Dragiša Mišović" Stefan Mitić (Serbia)	17.30-18.00	ROUND TABLE - PANEL DISCUSSION: LAPAROSCOPIC SURGERY YESTERDAY, TODAY, TOMORROW - A STEP TOWARDS ROBOTICS? Aleksandar Simić, Bojan Jovanović, Miljan Čeranić, Daniel Galun, Ognjan Skrobić, Zoran Radovanović, Aleksandar Gluhović, Goran Stanojević
12.30-12.45	Laparoscopy in GH Valjevo Saša Žunić (Serbia)		
12.45-13.00	Laparoscopy in CHC Bežanijska Kosa Borislav Tošković (Serbia)		
13.00-13.15	Laparoscopy in VMA Boško Milev (Serbia)		
13.15-13.30	Laparoscopy in GH Senta Lehel Burany (Serbia)	19.00-19.15	OPENING LECTURE: Surgical ego, the good, the bad and the ugly Abe Fingerhut (USA)
13.30-13.45	Laparoscopy in GH Kruševac Rade Zdravković (Serbia)		
13.45-14.00	Laparoscopy in UCC Serbia Boris Tadić (Serbia)	19.30-20.00	OPENING CEREMONY WELCOME RECEPTION
14.00-14.15	Laparoscopy in GH Čačak Dejan Dabić (Serbia)	20.00	
14.15-14.30	Laparoscopy in IO Sremska Kamenica Aleksandar Đermanović (Serbia)		
14.30-14.45	Laparoscopy in GH Zrenjanin Aleksandar Ognjenović (Serbia)		
14.45-15.00	Laparoscopy in GH Požarevac Aleksandar Marković (Serbia)		

Hall 2

11.00-15.30	FREE PAPERS Chairmans: Srđan Mijatović (Serbia), Predrag Andrejević (Malta)	13.10-13.20	Contraversis in Ventral/Incisial Hernia Repair - Laparoscopic vs. Open Approach Marinko Žuvela (Serbia)
11.00-11.10	The Role of Magnets in Creating Anastomosis in Abdominal Surgery Zorana Mladenović (Serbia)	13.20-13.30	Role of Laparoscopy in Emergency Inguinal Hernias Selim Birol (Malta)
11.10-11.20	Laparoscopic Closure of Terminal Sigmoidostomy After Open Hartmann Surgery Tamaš Fajka (Serbia)	13.30-13.40	Laparoscopic Apendectomy - Our Experience Ivan Kostić (Serbia)
11.20-11.30	Most Common Types of Anastomosis in Minimal Invasive Esophagectomy for Esophageal Carcinoma Slobodan Rašić (Serbia)	13.40-13.50	Contraversis in Inguinal/Incisial Hernia Repair - Laparoscopic vs. Open Approach Dejan Dabić (Serbia)
11.30-11.40	Portomesenteric Venous Thrombus, a Rare, Life Threating Complication of Metabolic Surgery. Should We be More Prepared? A Literature Review. Kim A. Bailey (Malta)	13.50-14.00	Contemporary Management of Acute Cholecystitis Marija Dinić (Serbia)
11.40-11.50	TAMIS - Our Experience Milan Tadić (Serbia)	14.00-14.10	Integrating Frailty Assesment into Emergency Surgical Care: A Meta-Analysis on Postoperative Outcomes in Older Adults Svetlana Doris Brincat (Malta)
11.50-12.00	Implementation of Minimal Invasive Surgery in Treatment of Acute Appendicitis - Our Experience Lazar Vuksanović (Serbia)	14.10-14.20	Gastric outlet obstruction due to severe food passage with detected carcinoma of the peritoneum and omentum - case report Katarina Katić Stameniće (Serbia)
12.00-12.10	ERCP as Therapy of Choice in Patients With Mirizzi Syndrome Stefan Elek (Serbia)	14.20-14.30	The Impact of Staging Laparoscopy on Patient Selection for Cytoreductive Surgery and HIPEC In Peritoneal Surface Malignancies Nebojša Mitrović (Serbia)
12.10-12.20	When Medical Misdiagnosis Leads to Surgical Success Serkan Ilgun (Malta)	14.30-14.40	ERAS Protocol in Colorectal Surgery Dejan Petrović (Serbia)
12.20-12.30	eTEP in Hernia Surgery - Our Experience Marko Ranković (Serbia)	14.40-14.50	East-west Study: Impact of Pre- and Intra- operative Factors and Post- operative Care on Anastomotic Leak Outcomes Kim A. Bailey (Malta)
12.30-12.40	Complication of Laparoscopic Cholecystectomy Marija Bekić (Serbia)	14.50-15.00	Chronic postoperative pain in ingvinal hernia surgery Josip Samardžić (Croatia)
12.40-12.50	Laparoscopic Gastric Surgery - Our Experience Momir Nikolić (Serbia)	15.00-15.10	Abdominal wall surgery - anatomy Mario Rui Goncalves (Portugal)
12.50-13.00	From Incision to Innovation: Comparative Outcomes of NOSE and Transabdominal Extraction in Laparoscopic Colorectal Resection Svetlana Doris Brincat (Malta)	15.10-15.20	Laparoscopic colorectal cancer surgery in patients ≥75 Years - A single-center experience Dimitrije Todorović (Serbia)
13.00-13.10	Rectal adenocarcinoma in a patient with ulcerative colitis and simultaneous abdominal aortic aneurysm - case report Lazar Rosić (Serbia)	15.20-15.30	A clinical outcome and cost analysis of laparoscopic versus open apendectomy Božidar Zlatković (Serbia)
		15.30-16.00	LUNCH TIME

Hall 1

08.00-09.30	YOUNG IFSO Chairmans: Panagiotis Lainas (Greece), Gerhard Prager (Austria)	11.30-11.45	Pathoanatomy of hiatus hernia and implications for the robotic surgeon: How and why I like this Christian Gutchow (Switzerland)
08.00-08.15	Robotic Conversion of OAGB to RYGB for Anastomotic Ulcer Miljana Vladimirov (Germany)	11.45-12.00	Current Status of Minimally Invasive Management for Esophageal Diverticula Alberto Aiolfi (Italy)
08.15-08.30	Management of gastrogastic fistula post bariatric surgery Alejandro Gandsas (USA)	12.00-12.15	Achalasia in Clinical Practice - EFS Survey Ognjan Skrobić (Serbia)
08.30-08.45	Simulation and training in bariatric surgery Mario Rui Goncalves (Portugal)	12.15-12.30	COFFEE BREAK
08.45-09.00	Biliary reflux and hiatal hernia after One Anastomosis Gastric Bypass (OAGB) Moritz Felsenreich (Austria)	12.30-13.45	BARIATRIC SURGERY TODAY (1) Chairmans: Yogesh Vashist (Germany), Christoph Bichler (Austria)
09.00-09.15	Management of gastric leaks after sleeve gastrectomy Panagiotis Lainas (Greece)	12.30-12.45	New technologies for safer anastomosis Natan Zundel (USA)
09.15-09.30	Genetic and phenotype assesment in Obesity Disease Elena Ruiz Ucar (Spain)	12.45-13.00	The role of obesity management medications in the context of bariatric surgery Gerhard Prager (Austria)
09.30-10.45	UPPER GI TODAY Chairmans: Andrea Pietrabissa (Italy), Dejan Veličković (Serbia)	13.00-13.15	Robotic revisional bariatric surgery: where is the advantage Rodolfo Oviedo (USA)
09.30-09.45	Laparoscopic Treatment of Oesophageal Diverticulum Nebojša Ignjatović (Serbia)	13.15-13.30	Robotic Toupet for GERD after Roux en Y gastric by-pass Adel Abou Mrad (France)
09.45-10.00	(Para)Esophageal Psudotumor Fibroinflammatory Proliferation: From Mimicry to Esophagectomy Dragan Gunjić (Serbia)	13.30-13.45	How to prevent gastric sleeve complications Pavle Gregorić (Serbia)
10.00-10.15	Minimal Invasive Treatment of Oesophageal Achalasia: From Physiopatology to New Technologies Luigi Marano (Poland)	13.45-14.30	LUNCH TIME
10.15-10.30	Is Organ Sparing Gastric Resection Justified for Proximal Located Cancer – Oncological and Functional Considerations Yogesh Vashist (Germany)	14.30-16.15	BARIATRIC SURGERY TODAY (2) Chairmans: Ognjan Skrobić (Serbia), Luigi Marano (Poland)
10.30-10.45	Robotic Hand-sewn Oesophageal Anastomosis Andrea Pietrabissa (Italy)	14.30-14.45	OAGB - technical aspects and metabolics results Dejan Veličković (Serbia)
10.45-11.00	Precision Surgery: Robotic, Augmented Reality, and 3D-Printed Approaches to Complex Giant Hiatal Hernia With Mesenteroaxial Volvulus Luigi Marano (Poland)	14.45-15.00	Innovations in endobariatric treatments, primary applications and redo Andrea Formiga (Italy)
11.00-12.15	WHEN EFS MEETS UEHS Chairmans: Aleksandar Simić (Serbia), Davide Bona (Italy)	15.00-15.15	Bariatric project - North Macedonia Ognen Kostovski (North Macedonia)
11.00-11.15	Surgical Innovations in GERD Luigi Bonavina (Italy)	15.15-15.30	Laparoscopic and robot assisted SADI-S Christoph Bichler (Austria)
11.15-11.30	The World of Antireflux Procedures: From Lortat-Jacob to TIF Aleksandar Simić (Serbia)	15.30-15.45	Magnetic Surgery: Innovation Hype or the Next Surgical Standard? Maja Odović (Spain)
		15.45-16.00	Internal herniation with bowel obstruction after gastric bypass Zoran Ražnatović (Norway)
		16.00-16.15	From beginner to over 100 bariatric surgeries Miljan Zindović (Montenegro)

Hall 2

08.30-09.15	EXPANDING HORIZONS IN UPPER AND LOWER GI ENDOSCOPY Chairmans: Ivan Jovanović (Serbia), Damir Muhović (Montenegro), Biljana Radovanović Dinić (Serbia)	12.00-12.15	COFFEE BREAK
08.30-08.45	Current Strategies for Endoscopic Therapy of Lower GI Precancerous Lesions Giovanni Luigi Papparella (Italy)	13.30-14.30	LUNCH TIME
08.45-09.00	Interventional Endoscopy in IBD and Corrective Endoscopic Techniques Nikola Panić (Serbia)	14.30-16.15	LAPAROSCOPY IN PEDIATRIC SURGERY Chairmans: Zafer Dokumcu (Turkey), Aleksandar Sretenović (Serbia)
09.00-09.15	Bariatric Endoscopy: Tailored Solutions for Selected Obese Patients Milutin Bulajić (Italy)	14.30-14.45	Update on Management of Esophageal Atresia and Its Complications Zafer Dokumcu (Turkey)
09.15-10.30	ADVANCES IN PANCREATOBILIARY INTERVENTIONAL ENDOSCOPY Chairmans: Ivan Jovanović (Serbia), Nikola Panić (Serbia), Gjorgji Deriban (North Macedonia),	14.45-15.00	MIS for Esophageal Replacement Zafer Dokumcu (Turkey)
09.15-09.30	Indeterminate Biliary Structures: Evolving Standards in Endoscopic Diagnosis and Therapy Vladimir Milivojević (Serbia)	15.00-15.15	Advancements and Current trends in the minimally invasive treatment of pediatric GERD Aleksandar Sretenović (Serbia)
09.30-09.45	Managing Complications of Acute Pancreatitis: Is Endoscopy Taking the Lead? Stanko Petrović (Serbia)	15.15-15.30	Endoscopic Stone Disintegration in Children: Expanding the Role of Minimally Invasive Surgery Predrag Ilić (Serbia)
09.45-10.00	EUS in PDAC Management: A Central Role Emerging? Emilija Nikolovska (North Macedonia)	15.30-15.45	Clips, Loops, or Staplers? Choosing the Optimal Technique for Appendiceal Stump Closure in Laparoscopy Tanja Mijović (Serbia)
10.00-10.15	Endoscopic Biliary Drainage in Oncology: State-of-the-Art Concepts Petko Karagyozov (Bulgaria)	15.45-16.00	Laparoscopic pyeloplasty in children: initial single-center experience Marko Marjanović (Serbia)
10.15-10.30	CLOSING REMARKS	16.00-16.15	The role of laparoscopy in recurrent pediatric inguinal hernia Petar Rašić (Serbia)
10.30-13.10	LAPAROSCOPIC URGENT SURGERY Chairmans: Srđan Mijatović (Serbia), Dušan Micić (Serbia)		
10.30-10.45	Minimally Invasive Surgery in Emergency Situations – Advantages and Limitations Aleksandar Resanović (Serbia)		
10.45-11.00	Acute Appendicitis and Acute Cholecystitis – A Minimally Invasive Approach Dušan Micić (Serbia)		
11.00-11.15	Laparoscopy in Treatment of Ulcer Perforation Srđan Mijatović (Serbia)		
11.15-11.30	Laparoscopy in Acute Conditions of the Colon Zlatko Perišić (Serbia)		
11.30-11.45	Laparoscopy of Incarcerated Hernia Aleksandar Resanović (Serbia)		
11.45-12.00	Laparoscopy of Incarcerated Femoral Hernia Ljubiša Rančić (Serbia)		

09.00-11.00 **HANDS-ON COURSE:**
LAPAROSCOPIC ADVANCED SUTURING

Course tutors: Aleksandar Gluhović, Milan Veselinović

Hands-On Course in Laparoscopic Suturing, designed for surgeons and surgical trainees aiming to refine their minimally invasive skills.

Course Highlights:

- Step-by-step instruction in intracorporeal and extracorporeal knot tying
- Practical exercises on advanced laparoscopic simulators
- Expert demonstrations by experienced laparoscopic surgeons
- Individualized feedback and skill assessment
- Tips and tricks for efficiency and precision in laparoscopic suturing

General surgeons, residents, and fellows interested in improving their laparoscopic technique
Certification of Attendance will be provided upon completion.
Spaces are limited to ensure optimal hands-on experience.

11.00-13.00 **HANDS-ON COURSE:**
STAPLING IN LAPAROSCOPIC SURGERY

Course tutors: Zoran Radovanović, Bojan Jovanović, Ognjan Skrobić

Hands-On Course in Laparoscopic Stapling, designed for surgeons and surgical trainees seeking to master the principles and techniques of safe and effective stapler use in minimally invasive surgery.

Course Objectives:

- Understanding stapler types, mechanics, and cartridge selection
- Step-by-step training in laparoscopic stapling techniques
- Safe tissue handling and staple-line reinforcement methods
- Management of intraoperative complications related to stapling
- Hands-on practice using advanced laparoscopic simulators and tissue models
- Robotic stapling device

Highlights:

- Live demonstrations by expert laparoscopic surgeons
- Small-group, mentor-guided sessions for optimal learning
- Interactive discussions on evidence-based surgical strategies
- Individualized feedback and performance evaluation

Who Should Attend:

- General and gastrointestinal surgeons
- Surgical residents and fellows involved in laparoscopic procedures

Participants will receive a Certificate of Attendance upon completion.
Participation is limited to ensure intensive hands-on experience.

Thursday, April 23rd

Hall 3

ESPEN – European Society for Clinical Nutrition and Metabolism

14.30-17.00 **LLL COURSE, Topic 17:**
NUTRITION IN THE PERIOPERATIVE PERIOD

Lecturers: Mihailo Bezmarević, Bojan Jovanović, Natalija Vuković, Milena Stojanović

LLL Course modules: 1) Metabolic Responses to Surgical Stress, 2) Managing Surgical Stress: Principles of Enhanced Recovery and Effect on Outcomes, 3) Making the Gut Work, 4) Nutritional Therapy in the Perioperative Period

Learning Objectives:

- To know the important stressors in surgical care;
- To understand the important mediators of the metabolic responses to surgery;
- To know the key responses of carbohydrate, protein and lipid metabolism in the surgical patient;
- To know how the metabolic responses to surgery relate to surgical complications;
- To know the mechanisms of the strategies that have been shown to reduce the metabolic responses to surgery;
- To understand the special metabolic problems posed by some co-morbidities in surgical patients.
- Understand the key concepts underpinning modern perioperative care;
- Know the principle domains within an ERAS protocol (pain, GI function and mobilisation);
- To understand the principles of prehabilitation and how it relates to ERAS;
- Be able to discuss practical aspects of patient management to manage surgical stress and attain optimal organ function and recovery in the perioperative period;
- Understand the importance of the multidisciplinary team, unit organisation, patient information, discharge criteria and audit within an ER programme;
- Gain insight into the key outcomes that are possible with an ERAS approach.
- To understand the pathophysiological changes leading to postoperative ileus (POI);
- To estimate the magnitude of the problem;
- To examine the evidence behind strategies to prevent and treat POI;
- To learn about strategies that may be helpful in the prevention and treatment of POI in the future;
- Pseudo-obstruction or delayed gastric emptying will not be discussed.
- Necessity of nutritional risk screening in surgical patients;
- Definition of "high nutritional risk";
- Indications and concepts for perioperative nutritional therapy according to the ESPEN guidelines;
- Preoperative conditioning;
- Enteral, parenteral, and combined enteral/parenteral nutrition;
- Macro-, and micronutrients;
- Indications for immune-enhancing diets;
- Nutritional monitoring and follow-up after discharge.

After course, there will be presented two case report with interactive discussion with participants, and an Assessment test. A certificate of 4 CME credits is awarded after passing a test (24 correct out of 30 true/false questions).

Friday, April 24th

Hall 1

09.00-11.30	MINIMAL INVASIVE COLORECTAL SURGERY (1) Chairmans: Miljan Čeranić (Serbia), Tan Aranlampulam (UK)	12.00-13.30	MINIMAL INVASIVE COLORECTAL SURGERY (2) Chairmans: Zoran Radovanović (Serbia), Keneth Cambell (UK)
09.00-09.15	Structured, Simulation-Based National Training Programme in Laparoscopic Appendectomy – Preliminary Results Miljan Čeranić (Serbia)	12.00-12.15	Failed coloanal anastomosis: decision and pathways of salvage strategies Goran Stanojević (Serbia)
09.15-09.30	Minimal Access Anterior Rectopexy – How to Do It Kenneth Campbell (UK)	12.15-12.30	Implementation of robotic colorectal surgery program at UMC Ljubljana- from competency to proficiency Jan Grosek (Slovenia)
09.30-09.45	Laparoscopic Redo in Colorectal Surgery – How Far Can We Go Valentin Calu (Romania)	12.30-12.45	Segmental laparoscopic colon resection for SFC - justified or not? Igor Krdžić (Serbia)
09.45-10.00	Anastomotic Leak – The Human, Financial, and Environmental Cost Tan Arulampalam (UK)	12.45-13.00	ICG and inovative sistems in colorectal surgery Predrag Andrejević (Malta)
10.00-10.15	Laparoscopic low anterior resection of the rectum: understanding the importance of rectal stump staple line Zoran Radovanović (Serbia)	13.00-13.15	The Lack of Standardisation in Laparoscopic Complete Mesocolic Excision for Right Colon Cancer Igor Stipančić (Croatia)
10.15-10.30	Approaches in laparoscopic colon surgery Dragan Radovanović (Serbia)	13.15-13.30	Learning curve in laparoscopic colorectal surgery after 500 cases Nebojša Stojaković (Serbia)
10.30-10.45	Colovac device for protection of high risk colorectal anastomoses: results of SAFE-2023 study Aleksy Karachun (Russian Federation)	13.30-14.30	LUNCH
10.45-11.00	Indications, Technical Tips and Outcomes of Ileal Pouch Surgery Erman Aytac (Turkey)	15.00-16.00	MINIMAL INVASIVE COLORECTAL SURGERY (3) Chairmans: Goran Stanojević (Serbia), Aleksy Karachun (Russian Federation)
11.00-11.15	Surgical management of IBD Dorin Ziyaie (UK)	15.00-15.15	Laparoscopic VS Robotic colorectal resection. Facts based on literature and 16 year experience. Haris Konstantinidis (Greece)
11.15-11.30	Robotic total mesocolic excision for splenic flexure Tumors Victor Tomulescu (Romania)	15.15-15.30	Enhanced Recovery After Surgery (ERAS) Protocols in Minimally Invasive Surgery for Colorectal Cancer Zlatan Mehmedović (Bosnia and Hercegovina)
11.30-12.00	COFFEE BREAK	15.30-15.45	Laparoscopic Hartmann's reversal Milica Nestorović (Serbia)
		15.45-16.00	Laparoscopic CME: Redefining the gold standard for right hemicolectomy Milan Veselinović (Serbia)

Friday, April 24th

Hall 2

09.00-11.00	LAPAROSCOPIC LIVER SURGERY Chairmans: Daniel Galun (Serbia), Zoran Milošević (Serbia)	13.15-14.00	MINIMAL INVASIVE SURGERY IN HERNIA TREATMENTS (1) Chairmans: Bojan Radovanović (Serbia), Aleksandar Gluhović (Serbia)
09.00-09.15	The mechanisms of bile duct injury during laparoscopic cholecystectomy and their prevention Abe Fingerhut (USA)	13.15-13.30	SCOLA approach in treatment of diastasis recti, umbilical and epigastric hernia Andrija Antić (Serbia)
09.15-09.30	Selective vascular control during laparoscopic liver resections Daniel Galun (Serbia)	13.30-13.45	Incisional hernias under local anesthesia: a possible alternative Giovana Brancato (Italy)
09.45-10.00	Laparoscopic liver resections - how to avoid complications Arpad Ivanetz (Slovenia)	13.45-14.00	Dex robotic assisted laparoscopic eTEP in treatment of ventral hernias Aleksandar Gluhović (Serbia)
10.00-10.15	Difficult laparoscopic liver resection Nikolaj Belev (Bulgaria)	14.00-14.30	LUNCH TIME
10.15-10.30	Single port hepatic resection - single institution experience Mihajlo Đokić (Slovenia)	14.30-16.00	MINIMAL INVASIVE SURGERY IN HERNIA TREATMENTS (2) Chairmans: Bojan Radovanović (Serbia), Aleksandar Gluhović (Serbia)
10.30-10.45	Tips for Success With the Difficult Cholecystectomy Joshua Tierney (USA)	14.30-14.45	ITEP - Tips and Tricks Srđan Mijatović (Serbia)
10.45-11.00	Synchronous resection of metastatic colorectal malignancy Miha Petrič (Slovenia)	14.45-15.00	Extraperitoneal Robotic Parastomal Hernia Repair - Italian experience with Pauli technique Cesare Stabilini (Italy)
11.00-11.30	COFFEE BREAK	15.00-15.15	Redo after TAPP, yes or not Gregor Kunst (Slovenia)
11.30-13.00	LAPAROSCOPY IN PANCREATIC SURGERY Chairmans: Vladimir Đukić (Serbia), Mlađan Protić (Serbia)	15.15-15.30	Robotic preperitoneal and retromuscular repair for abdominal wall defects Umberto Bracale (Italy)
11.30-11.45	Laparoscopic vs open in extensive oncological surgery Vladimir Đukić (Serbia)	15.30-15.45	Surgical Preperitoneal Space - Anatomic Dilemmas In TEP Procedure Bojan Radovanović (Serbia)
11.45-12.00	Laparoscopic distal pancreatectomy Mlađan Protić (Serbia)	15.45-16.00	Laparoscopic Hernia Day-Surgery: Challenges at the Intersection of Quality, Healthcare System, Economy and Modern Technology Salih Avdičaušević (Germany)
12.15-12.30	The "One-step" Approach to Severe Necrotizing Pancreatitis Joshua Tierney (USA)		
12.30-12.45	Minimal invasive pancreatic surgery- where are we now Miljan Milanović (Serbia)		
12.45-13.00	Minimal invasive interventions in necrotizing pancreatitis Mihailo Bezmarević (Serbia)
